

INTERPOL E-Evidence Boot Camp (EEBC)

17 June to 11 August 2019

If you face challenges understanding the concepts behind electronic evidence and would like to improve your knowledge of how to determine the authenticity, reliability and integrity of digital evidence, INTERPOL has a solution for you.

The INTERPOL E-Evidence Boot Camp (EEBC) is a **free E-learning course** delivered by INTERPOL Project SCORPIUS¹ and the Cybercrime Capacity Building Project in the Americas² in collaboration with University College Dublin - Digital Forensic Investigation Research Laboratory (DigitalFIRE). The course will take place from **17 June to 11 August 2019**.

➤ Course Objectives

By attending this online course you will have the opportunity to **improve your understanding** of the key aspects of computing, information technology and digital forensics as they pertain to the evaluation of digital evidence that could be presented in court.

This course will also be an opportunity to **develop a professional network and share experiences**, challenges and best practices with like-minded people **worldwide** and some of the best experts in the field of digital forensic.

➤ Target Audience

This course is open to **Law Enforcement Officers, Prosecutors and Judges of all INTERPOL member countries**. The only requirements are to have: an excellent command of English, basic computer literacy, access to a computer and an Internet connection.

➤ Commitment

The EEBC will be delivered **100% online** and will require a commitment of approximately **2.5 hours per weeks over 8 weeks from 17 June to 11 August 2019**, allowing it to fit into your busy schedule. Interaction is key to the success of this course, thus participants will be invited to participate in a dedicated forum, attend webinars, as well as complete assignments at the end of each week (anonymization of your participation is possible).

¹ [INTERPOL Project SCORPIUS](#) is a capacity building initiative funded by the Government of Canada aimed at enhancing investigative and analytical skills of law enforcement officials to prevent and disrupt terrorism and related transnational crime.

² [Cybercrime Capacity Building Project in the Americas](#) is a capacity building initiative funded by the Government of Canada aimed at assisting police across Latin America and the Caribbean to build their knowledge and skills to fight cybercrime.

➤ Certification

Participants who successfully complete all of the assignments will receive a **certificate of completion delivered by INTERPOL**.

➤ Leading Experts

Dr Pavel Gladyshev is a lecturer at the University College Dublin (Ireland), where he established the MSc programme in the field of Digital Forensics for Law Enforcement. Dr Gladyshev started **working with Law Enforcement in 1998** when he oversaw the creation of the first Irish training course in cybercrime investigation for the Irish national police. Dr Gladyshev holds a PhD in the field of Digital Forensics and is leading the Digital Forensics Investigation Research Laboratory (DigitalFIRE), **focusing on the development of new investigative technologies**.

Mr Sébastien Lafrance is a **Crown Prosecutor for the Public Prosecution Service of Canada** and a former part-time Professor of Law at the University of Ottawa. He clerked at the **Supreme Court of Canada** and at the Quebec Court of Appeal. He has **published articles on constitutional and criminal law**. Mr Lafrance completed the courses for a **Master in Law** at Laval University and he is currently finalizing his thesis. Mr Lafrance won with his teammates a public international law moot court and he studied private international law at the **The Hague Academy of International Law**.

➤ How to Apply

To apply to the EEBC please **complete the online application form** available at the following link **before 31 May 2019**:

<https://www.research.net/r/EEBC19>

After reviewing your application, the course team will contact you **before 7 June**, to let you know if you have been successful, and to provide you with the information necessary to start the course.

Places are limited and allocated on a first-come first-serve basis.
